(fodor 1983). but the book i thought i'd write ... before the discussion gets seriously under way, however, i want to sketch a brief overview for purposes of orientation. here, **is the mind really modular? - jesse prinz** - is the mind really modular? jesse j. prinz when fodor titled his (1983) ... **dividing up the mind**. 4. ontogenetic determinism fodor implies that modules are ontogenetically determined: they develop in a predictable way in all healthy individuals. modules emerge through the maturation, rather than learning and experience. **jerry fodor (1935-2017) - rucstgers** - concepts, 1998 and the mind doesn't work that way, 2000, all of which have been translated into spanish). with this wealth of experience, it is hardly surprising that jerry fodor has been regarded as the prototype of the cognitive scientist par excellence (h. gardner, 1985, *The Mind's New Science: Fodor Encapsulated* - pli - fodor encapsulated j. a. fodor, the mind doesn't work that way: the scope and ... mind doesn't work this way. we have some good ideas about how some parts of the mind . might . work, fodor avers, but we haven't got a clue about how most of the mind works . **salva** . some new scientific insights. **the mind-body problem jerry a. fodor** - the mind-body problem jerry a. fodor ... and one way of coming to grips with it is to review the deficiencies of the dualist and materialist philosophies of ... in kind from physical processes, there would be no reason to expect these methods to work in the realm of the **complex ideas: fodor's hume revisited**- complex ideas: fodor's hume revisited sergio balari & guillermo lorenzo to jerry fodor (1935-2017), in memoriam 1. introduction in 2003, jerry fodor published *Hume Variations* (hv), a book sitting astride the mind doesn't work that way (fodor 2000) and lot 2 (fodor 2008). sadly, we now **what computations (still, still) can the mind do: jerry fodor on ...**- jerry fodor's *The Mind Doesn't Work That Way* (2000; hereafter *Mind*) purports to do a number of things. to name three: first, it aims to show what is problematic about recent evolutionary psychology, especially as popularized in steven pinker's *How the Mind Works* (1997). **evolutionary psychology versus fodor: arguments for and ...** - work that way (2000). the mind doesn't work that way is a response to pinker's *How the Mind Works* (1997), in which the massive modularity hypothesis is thoroughly defended. fodor's criticisms are of particular interest in this debate, because in his earlier book *The Modularity of Mind* (1983), he famously argued for **how does the mind work? insights from biology** - how does the mind work? insights from biology gary marcus ... is the mind in some way like a computer? does it compute in serial or parallel? does it manipulate symbols? ... lated computational units, a la fodor (1983)? 3. optimality: to what extent are the mind's operations optimal? 4. symbol manipulation: does the mind in fact manipulate ... **book review: jerry fodor, the mind doesn't work that way ...** - jerry fodor, *The Mind Doesn't Work That Way*, cambridge, ma:bradford books/mit press, 2000, 126 pp., isbn: 0-262-06212-7. when asked what cognitive science was, it used to seem quite appropriate to say that it was whatever jerry fodor was up to at the time. this slim book is the latest **it does so. - philarchive** - work that way, or anyhow, not very much of the mind works that way. fodor dubs the synthesis of computationalism, nativism, massive modularity, and adaptationism the new synthesis (p. 5).
